Report of the Mayor

Mayor Kingston said he received information that Tom English passed away unexpectedly on Sunday. Tom and his late wife Meg were active in the CVYO baseball program and the Brecksville Recreation Department. The City also lost a former member of the Recreation Commission, Scott Campbell. Mr. Campbell was very active in pickleball and also died unexpectedly on Sunday.

Mayor Kingston congratulated Council Member Stucky on the birth of his grandson, Ramsey.

Other Matters:

Christine Lakatos 6556 Lloyd Road is a new member on the BBH Pride Board and is looking forward to a cooperative and working relationship with the City.

Amy Tytko, 9117 Highland Dr. asked what would happen in terms of construction in the city and the roads because I know there's been a lot of construction lately.

Engineer Wise said there would be more construction. The intent would be that if the City received the grant, we would replace the water line. Prior to repaving the third phase of Brecksville Road, contractors will excavate out and then lay a water main next to the existing water main and then reconnect everyone's house and then they would re-pave the road. Mayor Kingston said roughly once every 20 years we have to resurface Brecksville Road, the entire length of Brecksville Road. The City decided was to do the construction in three phases over three years. Instead of trying to complete in one year, we split it up and we're doing three different sections. So that's why it seems like the construction is never ending. Two of the sections are done. In 2027, we do have a little piece that's going to happen this year, but in 2027, that's when the last section will be done. And this pipe is in that last section if we get the grant. So before the City resurfaces it, if we can get a grant to fix the pipe underneath it, we'll do both at the same time.

Council President Caruso said the pipe is 100 years old. Council Member Bender said last year by Sleepy Hollow Golf Course, we had water coming across Brecksville Road a lot of it. The best case scenario is to replace the pipe before paving.

EXHIBIT “A”

**MEMORANDUM OF UNDERSTANDING for 2026-2030
Between Cuyahoga Soil & Water Conservation District
and the
Northeastern Ohio Regional Sewer District
and the City of Brecksville**

This Memorandum of Understanding (“MOU”) is made effective as of the 1st day of January, 2026 (“Effective Date”), between Cuyahoga Soil & Water Conservation District (“Cuyahoga SWCD”) and the Northeastern Ohio Regional Sewer District (“NEORS”), pursuant to the authority of Board Resolution 17-26, adopted February 5, 2026 and the City of Brecksville (“City”), referred to herein as the “Parties,” to provide technical support in meeting the Ohio EPA’s National Pollutant Discharge Elimination System (NPDES) General Permit for Municipal Separate Storm Sewer Systems (MS4s) (NPDES Phase II) requirements for the following Minimum Control Measures (MCMs):

- MCM #1- Public Education and Outreach
- MCM #2- Public Participation

BACKGROUND AND PURPOSE

Recognizing the need for effective collaboration in raising awareness through education, stewardship opportunities and public involvement and working to change the perceptions and behaviors of the public for a cleaner, healthier environment, such as what is required in the National Pollutant Discharge Elimination System (NPDES) permit, the City, Cuyahoga SWCD, and NEORS accept this agreement as the document which describes the process for exchange. Cooperation between these units of government facilitates better awareness of environmental issues and involvement in potential solutions for a healthier environment. In providing conservation education assistance and expertise to the City, Cuyahoga SWCD hopes to influence citizens to better protect and conserve soil and water resources both locally and throughout Ohio. Ohio Revised Code, Chapter 940, describes Cuyahoga SWCD’s authority for engaging in this MOU.

Additionally, NEORS is required to provide Phase II stormwater regulation support services to member communities for Minimum Control Measures #1, #2, #3, and #6 under NEORS’s Regional Stormwater Management Code (Title V) and is further authorized to provide such services through agreements with service providers such as Cuyahoga SWCD.

Cuyahoga SWCD, NEORS, and the City have mutually agreed to this scope of assistance related to education, stewardship, and public involvement for the conservation of soil and water resources.

ANNUAL PROGRAM TASKS

Cuyahoga SWCD will work with the City and NEORS D to provide an annual Public Involvement and Public Education (PIPE) program that meets performance standards for MCMs #1 and #2, as established by the City's OEPA-issued stormwater permit.
